

# This isn't a tree. It's your daughter's wedding.

Of course, it's a seedling. But it's also a world of infinite potential. A home for wildlife. Happy times. Your legacy to those you love. And the means of providing them with the things they need most.

Deciding to sell your trees is never easy. To help you sort it out, we'd like to send you a free copy of *A Simple Guide To Managing And Harvesting Your Trees*. Just send us the coupon or call 1(800)284-5347.

Do it right and you'll be able to leave them something else too. More trees.
