

Whatever the problem, whatever the brand, we can fix it

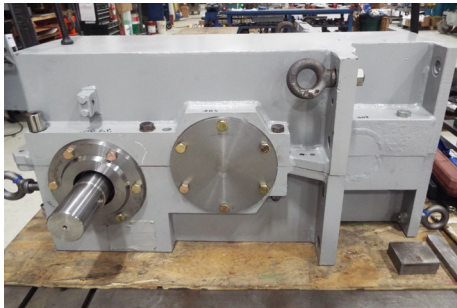

We started AGW in 1988 repairing and rebuilding gearboxes for paper mills. Since then, we've added services and capabilities to apply our experience and expertise to other industries as well. During our 30-plus years, we've repaired and reverse-engineered just about every kind of gearbox there is, with a focus on improving components to equal or better quality than the original. Whether your repair is planned or unplanned, we're ready to respond 24/7.

Some of the brands we repair:

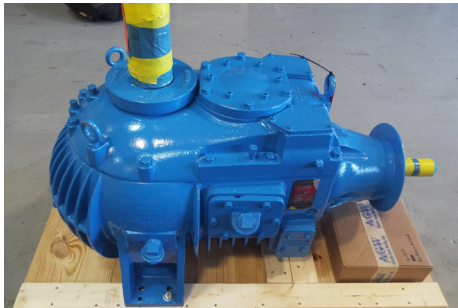

- Amarillo • Beloit • Black Clawson • Danieli • Dodge • Elliott • Falk • Flender • Foote Jones • Hansen
- Horsburgh and Scott • Lightnin • Link-Belt/PIV • Lufkin • Marley • Nuttall • Philadelphia Gear • Santasalo
- SEW Eurodrive • Sumitomo • Western

2-speed conveyor gearbox during repair

Steel mill straightener during rebuild
