

Ganahl Lumber needed to squeeze a 20-acre operation into a 4-acre lot.

The site was small, but our solution wasn't.

Ganahl's newest facility in Pasadena, California, had to deliver the same customer experience as their larger facilities – in 1/5th the space. Our comprehensive solution made every inch of the repurposed site more efficient. We designed and furnished a variety of high-capacity storage systems, including Sunbelt Rack Power Bins, T-sheds, and push back racks.
